Education

Bachelor of Communication Engineering

Sep 2018 - Sep 2023

Yarmouk University, Irbid

I am a fresh graduated with a grade point average 72.5 which is rated as good, it is caring of data processing, and high quality of receiving and sending data with minimum losses cost by using different techniques such as fiber and wireless, also understanding radio frequencies.

Experience

Royal Jordanian Air Force

Mar 2023 - Jul 2023

Amman

My training at the Communications Directorate included how to install and connect fiber optic cables and the special devices used to inspect and repair them. In addition to the CCTV section, where I learned about the devices used in this system and how to connect them. I was also able to do programming on wired phones. Finally, the STC section is considered the basic part of communications because it includes the process of sending and receiving signals from one point to another.
